Synthetic Data Dictionary

Healthcare Insurance Claims Fraud Detection POC

All entities and values are fictional and generated for testing.

claims.csv

Field	Type	Description
claim_id	string	Unique synthetic claim identifier
member_id	string	Synthetic member foreign key
provider_id	string	Synthetic provider foreign key
service_date	date	Date service was provided
submission_date	date	Date claim was submitted
procedure_code	string	Synthetic procedure code foreign key
diagnosis_code	string	Synthetic diagnosis category code
units	integer	Number of units billed
billed_amount	float	Synthetic amount billed
allowed_amount	float	Synthetic allowed amount
paid_amount	float	Synthetic paid amount
claim_status	category	Paid, Pending, Denied or Partially Paid

members.csv

Field	Type	Description
member_id	string	Unique synthetic member identifier
age_band	category	Synthetic age band
plan_type	category	Synthetic plan type
region	category	Synthetic region
coverage_start_date	date	Synthetic coverage start
coverage_end_date	date	Synthetic coverage end

providers.csv

Field	Type	Description
provider_id	string	Unique synthetic provider identifier
specialty	category	Synthetic provider specialty
region	category	Synthetic region
provider_type	category	Synthetic provider type
network_status	category	In-Network or Out-of-Network
provider_start_date	date	Synthetic provider start date

procedures.csv

Field	Type	Description
procedure_code	string	Unique synthetic procedure identifier
description	string	Illustrative procedure description
typical_specialty	category	Synthetic specialty grouping
reference_amount	float	Synthetic reference amount; not a real fee schedule

Field	Type	Description
maximum_units_guideline	integer	Synthetic test guideline

claim_line_items.csv

Field	Type	Description
claim_id	string	Claim foreign key
line_number	integer	Line sequence within claim
line_procedure_code	string	Procedure code on line
line_units	integer	Units on line
line_billed_amount	float	Line billed amount
line_allowed_amount	float	Line allowed amount
line_paid_amount	float	Line paid amount

synthetic_labels.csv

Field	Type	Description
claim_id	string	Claim foreign key
synthetic_anomaly_label	integer	1 for injected synthetic anomaly; 0 otherwise
synthetic_scenario	category	Scenario used for injection; NONE for other claims
